Right Hand Shown

For ADA Applications

New ADA style handle with its larger handle knob will make it easier for those needing to use it to easily enjoy the benefits of operable hinged windows. The ADA style handle with its larger diameter and longer contour shaped knob make it easier for a person with limited ability to crank open/close a casement or awning style window.

- Noticeable "detent" when unfolding and folding the handle assures the user that the handle is fully extended or retracted.
- Refer to Truth Hardware Tech Note # 5 for further information about how Truth Hardware can help make your window or door system ADA compatible.
- Available in all of Truth's standard and decorative finishes.

Encore® Operator HANDLES & COVERS

Encore® Series Nesting Operator Covers Offer A Smooth Contemporary Look

Truth's new "nesting" cover for the Encore Series of operators provides options to an already stylish design. Encore operators give you all the strength and performance characteristics you need in an operator with the flexibility of handle and cover options.

Full-Flip Handle

The Full-Flip Handle design is engineered to help maintain its "open" position without retracting in on itself during operation. The handle provides smooth operation with a more contemporary look when nested and allows for easy screen removal without removing the crank.

Snap-Fit Cover

The Snap-Fit cover removes easily for painting and staining of the window frame and provides a smooth, contemporary look for your windows. Integrated snap feature allows fastenerless cover attachment and installation after home is completed, helping to eliminate construction damage.

In addition, the Full-Flip Handle and Snap-Fit Covers provide an opportunity for you to reduce your inventory of optional operator colors as the hardware's appearance can be changed by simply adding a different handle and cover option. The Encore Series Nesting Handles and Covers are available in all of Truth's finish options as well as many popular decorative finishes.

For more information about Encore®, Maxim® and EntryGuard® Series cover and handle options contact your Truth representative.
