Give Your Customers
The Innovation They Deserve.

Just When You Thought Double-Hung Window Hardware Couldn't Be Improved!

Now Available For Wood And Vinyl Windows.

The Fusion™ lock from Truth has moved double-hung hardware from ordinary to exceptional! The innovative design allows the tilt latches to be hidden in the check rail and actuated by a single lock/tilt latch mechanism. Not only does the Fusion System take away unsightly tilt latches off the top of the check rail, its features and benefits include:

- Available with trigger actuated retractable tilt latches preventing marring of wood
- Stylish low-profile, push-on cover with no visible screws
- Corrosion-resistant internal components
- Meets industry standard cycle testing
- Available in all of Truth's decorative finishes
- Latches are hidden into check rail—cleans up look of check rail
- Lock and tilt latch release are actuated by one mechanism—allows you the option of using either single or multiple locks on the window
- Adjustable for any size window—connecting strap is cut to desired length after hardware is installed
- Non-handed latches—less inventory
- Housing assembly is separate from base—increases inventory efficiencies by only having to inventory the housing in different colors or finishes not the entire locking system
- Stylish, fastenerless housing—makes it easy to install—*even after shipping window!*

Your Customers Will Love:

- Low profile styling
- Removable cover for finishing
- Easy, intuitive one-handed operation
- Pick resistant plate—increases security

Sash Tilt-In Is Easy!

1. Move lever to unlock position
2. Lift sash to clear frame
3. Move lever to the tilt position
4. Pull sash in to wash
5. To close, firmly push the sash shut

Tilt Latches specific to vinyl or wood applications are available
