Sentry™

Adjustable Hinge
Robust And Reliable.

Sentry™ Guide And Set Hinges Provide Adjustability For The Perfect Fit.

Sentry™

Truth Hardware presents the new Sentry™ Multi-Point Hinged Patio Door System — smart, sophisticated and stylish hardware for hinged doors. This innovative system is packed with features that gives you the ability to offer a complete line of Truth Hardware for windows, sliding doors, and now hinged patio doors.

Maximum Strength And Security

Strong. The Sentry™ adjustable hinge exceeds ANSI grade 3 requirement by achieving 350,000 cycles on panels weighing up to 220 lbs and ASTM F476 Grade 30 impact specifications.

Beautiful. Customize the hinge with painted finishes over aluminum or decorative finishes over brass, including PVD. Truth Hardware provides your creation with matching finishes on all strikes and handle sets for detailed perfection.

Smart. The 4" x 4" industry standard foot print with 5/8" corner radius fits a single pass routing pattern for easy installation and legacy replacements.

Simple. Install and adjust with no guessing, no accidental splitting, and no headaches. Large hex-head screws and intuitive indicators on Guide and Set Hinges allow for accurate vertical and horizontal adjustments using the same size hex-wrench. Set and Guide Hinges work in concert with one another by allowing vertical and horizontal adjustments to occur. Mounting screw holes located away from the panel edge to prevent splitting during installation.

Secure. Non-removable pins prevent tampering on out-swing doors, providing maximum security for your customers.

Silent. Composite bushings allow for noise-free operation and a longer cycle life.

Set Hinge
Vertical adjustment of +/- .12 in. (+/- 3 mm)

Guide Hinge
Horizontal adjustment of +/- .08 in. (+/- 2 mm)
